SUMMARY

Computer Science graduate from the University of Nueva Caceres with hands on experience in full-stack web development using React.js, Node.js, and Firebase. Currently building production web applications and integrating AI tools into real client projects. Open to software engineering and web development roles.

EXPERIENCE

Web Developer

January 2024 to Present

AC Architectural Studio

- Developing a full company website from scratch using React.js featuring a project gallery, services showcase, client inquiry system, and Gemini API powered AI chatbot to support international client acquisition.
- Designed and published visual content across website and social media platforms while managing communication channels to maintain consistent brand identity.

Data and Advertising Operations Specialist

November 2021 – August 2023

Wide-out Workforces Inc. (Broadlume)

- Managed large scale product datasets across hundreds of client websites using Salesforce, Excel, and Floorforce.
- Ensured accurate pricing, inventory, and catalog data for marketing and web publishing.
- Conducted regular data audits to identify and fix inconsistencies across client accounts.
- Partnered with cross functional teams to align marketing data with campaign requirements.

PROJECTS

E-Buddy (React.js, Node.js, Firebase)

- Capstone project. A web based board exam reviewer that adapts study sessions using the C4.5 decision tree algorithm based on each student's performance. Built the entire frontend, set up Firebase Authentication and Firestore, and optimized the decision tree logic for adaptive learning.

Sales Information System (PHP, MySQL, JavaScript)

- Built the frontend interface, structured the database schema for inventory and customer tracking, and developed the sales monitoring dashboard with transaction history.

Zombie Maze Game (Java)

- Led the team for the SHS Software Festival. Handled the majority of development including gameplay mechanics, sprite design, and visuals.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Angular, Vue, HTML, CSS, JavaScript, TypeScript, Tailwind, Bootstrap, jQuery

Backend & Databases: Node.js, PHP, Java, Python, MySQL, MongoDB, Firebase

No-Code and Design: Figma, Framer, Webflow, WordPress, Canva

AI Tools: Claude, ChatGPT, Gemini, Copilot, Cursor, Perplexity

Automation: Zapier, Make, n8n

Operations and Project Tools: Salesforce, Excel, Google Sheets, Monday, Trello, ClickUp, Slack, HubSpot, Notion

Cloud and Dev Tools: GitHub, VS Code, AWS, Google Cloud, Antigravity

CERTIFICATIONS

Amazon Web Services (AWS) – Cloud Foundations, Operations, Developing, and Architecting

Google Cloud Skills Boost – Prompt Design in Vertex AI

Anthropic – Claude 101

Cisco – Introduction to Cybersecurity

Amazon – Cybersecurity Awareness

Sololearn – Python Core, C, and SQL Fundamentals

EDUCATION

Bachelor of Science in Computer Science	2018 – 2024
University of Nueva Caceres	
Computer Programming	2016 – 2018
Camarines Sur National High School (<i>Senior High</i>)	
Special Program in the Arts, Major in Visual Arts	2012 – 2016
Camarines Sur National High School (<i>Junior High</i>)
